PROFESSIONAL SUMMARY

Detail-oriented and motivated Computer Science graduate with strong knowledge in programming, data structures, and problem-solving. Experienced in developing web applications and working with databases. Passionate about learning new technologies and building scalable solutions.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, SQL
Web Technologies: HTML, CSS, JavaScript
Frameworks: React, Node.js
Databases: MySQL, PostgreSQL
Tools & Platforms: Git, GitHub, VS Code, Docker
Core Concepts: Data Structures, Algorithms, OOP, DBMS, Operating Systems

PROJECTS

Weather Forecast Web Application
- Developed a web application to display real-time weather data using API integration.
- Designed responsive UI using HTML, CSS, and JavaScript.
- Improved API response handling and error management.

Task Management System
- Built a full-stack task management system using React and Node.js.
- Implemented CRUD operations with MySQL database.
- Integrated authentication and role-based access control.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science
University Name | Year of Graduation
CGPA: X.XX/10

ACHIEVEMENTS

- Solved 300+ problems on HackerRank.
- Active contributor on GitHub with multiple repositories.
- Participated in coding contests and hackathons.
